Harmony and comfort

The inspiration for creating this collection was a holistic combination of elements that create a peaceful and harmonious atmosphere, perfect for building good relationships. The Flos furniture collection and multifunctional acoustic screens were designed with the idea of domesticating work and relaxation spaces.

High and low benches

The aesthetic values of the Flos bench are emphasized by a smooth line subtly enclosing the armrests and backrest. The light form of the furniture and a touch of classic character give it finesse, especially desirable in spaces dedicated to relaxation and calmness. In integrative spaces, using benches instead of chairs creates a less formal atmosphere.
