

fora FR 421W

Danish design in a modern way

The inspiration behind creating this collection was Danish design, characterized by clean lines and graphic details. The minimalist frame of the base provides an intriguing contrast to the soft and spacious seats, backrests, and cushions.

Fora successfully brings a sense of warmth and coziness to open office spaces and public areas.

Acoustic sofas

Creating an intimate space that corresponds with the entire collection is made possible by acoustic walls. They bring order and harmony to the interior in Scandinavian style. Their attachment is possible only to sofas with armrests and backrest installed.

Kasper Mose

- architect, furniture and interior designer. He graduated from the Aarhus School of Architecture. He gained experience in top Danish design offices. He seeks simplicity and a holistic approach to design.

FR 421W / Technical data

● Standard ○ Option

Base

Powder coated (colors according to the Bejot sampler)

●
