

fora FR TB 13

Danish design in a modern way

The inspiration behind creating this collection was Danish design, characterized by clean lines and graphic details. The minimalist frame of the base provides an intriguing contrast to the soft and spacious seats, backrests, and cushions.

Fora successfully brings a sense of warmth and coziness to open office spaces and public areas.

Coffee tables

Classic form met with contemporary design solutions. Tables in the Fora collection come in two sizes. Elongated or square tops set on a powder-coated metal base can be made of laminated board, oak plywood or HPL.

Kasper Mose

- architect, furniture and interior designer. He graduated from the Aarhus School of Architecture. He gained experience in top Danish design offices. He seeks simplicity and a holistic approach to design.

FR TB 13 / Technical data

● Standard

○ Option

Base

Powder painted (colors according to the Bejot sampler)

●
