

Sand

Technical description

Sand is a system of space-dividing upholstered walls. Thanks to their diversity, the models from the Sand line allow for furnishing many different zones in an office space.

The line comprises a few basic models of various dimensions that aid in creating diverse and functional arrangements adjusted to the needs of a particular office.

Walls

The 150 mm thick Sand wall is made of chipboard covered with hardly flammable polyurethane foam of 35 kg/m³ density and an upholstery fabric.

The wall cover is made of 18 mm thick melamine faced chipboard.

The Sand walls can be integrated with high tables or upholstered benches in the arrangements with low tables.

- 1 Cover – melamine faced chipboard 18mm
- 2 Levels (3, 4 or 5)

- 1 Cover – melamine faced chipboard 18mm
- 2 Levels (3, 4 or 5)

- 1 Sand wall
- 2 Sand high table with a chipboard leg
- 3 Sand bench, left and right
- 4 Sand low table with a metal leg

Benches

The bench carcass is made of plywood and 18 mm thick chipboard. The benches are covered with hardly flammable polyurethane foam of 35 kg/m³ density and an upholstery fabric made of natural wool. The bench sides are made of melamine faced chipboard.

Low table with a metal leg

The Sand table top with a metal leg is made of 25 mm thick melamine faced chipboard. The metal leg with a 70 × 70 mm square diameter is powder-coated in 3 colours (WHITE, ALU and BLACK).

- 1 Bench side – 18mm thick chipboard
- 2 Bench seat and backrest – upholstered
- 3 Metal leg with a 70×70mm
- 4 Table top made of 25mm thick melamine faced chipboard

High table with a chipboard leg

The Sand table top with a chipboard leg is made of 50 mm thick laminated cellular board; the leg is made of 50 mm thick melamine faced chipboard.

Pouffes

The pouffes are made of expanded polystyrene and a carcass made of 25 mm thick chipboard covered with foam and upholstery. The pouffes are available as mobile versions (with castors) and stationary versions (with feet).

Reception walls

Reception wall consists of single units (empty inside), total thickness 150 mm. Each of them is made of melamine faced chipboard (MFC), thickness 18 mm, covered with fire retardant foam, thickness 6 mm, density 35 kg/m³, upholstered. Wall top is made of melamine faced chipboard (MFC), thickness 18 mm. Levelling in range of 20 mm.

Note: to complete an arrangement, dedicated sizes of desks, belonging to each furniture line, should be ordered separately – details in price list.

Accessories

Fixed handle

The handle is designed for fixing 17–37" screens and TVs with a maximum load capacity of 18 kg. It is compatible with VESA:
 VESA 75 (hole distance 75 × 75 mm),
 VESA 100 (hole distance 100 × 100 mm),
 VESA 200 × 100 (hole distance 200 × 100 mm),
 VESA 200 (hole distance 200 × 200 mm).

- 1 Table top made of 50mm thick laminated cellular board
- 2 50mm thick chipboard leg
- 3 Levelling feet

Adjustable handle

The handle F120B is designed for fixing 17–27" screens and TVs with a maximum load capacity of 7 kg.

Adjustment range:
 inclination angle + 50°/– 35°,
 trading range up to 180° minimum distance from the wall 85 mm,
 maximum distance from the wall 254 mm.
 Pivot function.
 It is compatible with VESA:
 VESA 75 (hole distance 75 × 75 mm),
 VESA 100 (hole distance 100 × 100 mm).
 The assembly set for Sand Wall is dedicated to the holder.

See [price list for the handles](#).

Media ports

Media ports – available in various types and configurations, to be ordered separately, see [media ports price list](#).

Sample order

When creating a Sand model name, you have to give information about its features according to the table below.

To make it easier, next to each model in the

pricelist there is a ready-to-use name with empty fields that need to be completed according to a given legend. Particular modules or equipment of particular modules are separated with the

"/" symbol. Modules are numbered from left to right.
