Segla

Sleek lines, unconstrained style and simplicity are at the core of the Scandinavian design ethos.

The Segla chair, which is named after one of Norway's most beautiful peaks, embodies not only raw, close-to-nature Scandinavian design but also thoughtful ergonomics and practical solutions provided for every user.

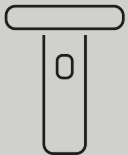

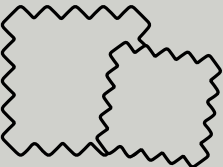

KEY FEATURES

The different heights of the Segla backrest ensure that it can be individually adapted to the needs and size of the user.

The 2D, 3D or 4D armrests provide proper support for the arms, which helps to maintain the correct posture and reduces tension in the back and neck area.

The wide range of available upholstery provides the freedom to arrange the space according to the user's individual colour preferences.

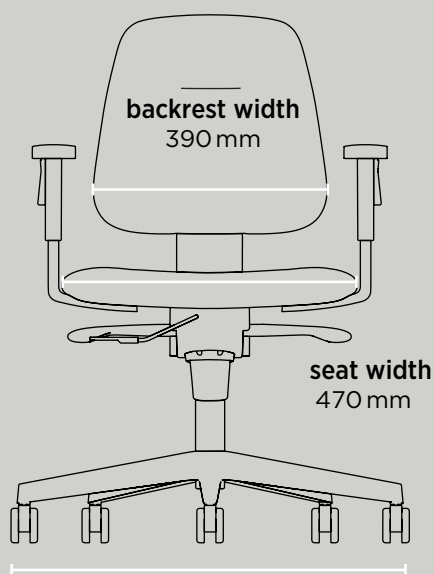

Finishes: Xtreme XR081, Bondai BN1008, Xtreme XR047
