

Economic Line

Economic Line banquet chairs are solid, strong and durable. Chairs are less expensive equivalents of chairs from the standard line. In this option, we have sixteen models in universal colours to choose from. They are characterized by a very attractive price. All models are immediately available in our warehouse. The chairs come with 2-year warranty.

Standard Line

Standard Line chairs are characterised by solid finishing, stackability and a comfortable, deformation-resistant seat made of special polyurethane foam. These features are an indicator of quality confirmed by the REMODEX certificate. The chairs are made of a strong steel profile, ensuring adequate stability with relatively low weight. The three-layer coating of the frame prevents damage and the anti-scratch layer ensures that the chair looks good for a long time. The chairs come with a 3-year manufacturer's guarantee.

Stop Fire

The STOP FIRE line is a perfect solution for the HoReCa industry, ensuring safety and comfort. Banquet chairs from this line have been specially prepared to minimize the risk of a possible fire spreading. One of the most important elements of these chairs is the fire retardant upholstery. Thanks to this solution, the risk of fire is significantly reduced, which increases safety in HoReCa facilities. The chairs come with a 2-year and 3-year warranty.

Maestro

Banquet Chairs MAESTRO is a pearl among banquet furniture. With this exclusive series of exceptional chairs, we confirm our position as the undisputed market leader in banquet chairs. By offering you the choice of MAESTRO, we give you the opportunity to create a chair according to your own visual requirements. MAESTRO chairs are characterised by exceptional quality thanks to the use of high-quality non-settling seats, hybrid frame varnishes and upholstery characterised by unrivalled abrasion resistance, made in fire-retardant or stain-resistant versions upon request.

Economic Line
