induction charger

standard

optional

Detailed information on standard/optional equipment can be found in the price list.

tablet/phone stand

air purifier

lighting

Efficient, energy-saving LED lighting adapted for reading, activated automatically due to a motion sensor. Adjustable lighting angle $\pm 20^\circ$. Color temperature 4300 K, brightness 390 Lm, powered by 12 V.

ventilation

Efficient ventilation system, used quiet fans with an air flow of approx. 80 m³/h.

The quantity of air has been adjusted so to ensure optimal user comfort. The system is completely maintenance free and safe.

Ventilation function – after leaving the booth, the ventilation will work for another 3 minutes to ensure comfort for the subsequent users.

electrical installation

Safe electrical installation, components made in 12 V standard. The set includes 2.5 m power cord (plug: type E – Poland, France; type F – Germany, type G – United Kingdom).

mediaport

The set includes a standard PIX round mediaport (white-W or black-B) ([type]TV) with one 230 V socket (type E – Poland, France; type F – Germany, type G – United Kingdom), it can be replaced with a mediaport PIX (white-W or black-B) (M1CC) with double USB socket.

air purifier

The purifier is an optional booth accessory which draws air and passes it through a titanium dioxide plate. The air combines with UVA light to produce a photonic-catalytic reaction which eliminates up to 99% harmful bacteria and viruses from the air. The purification process can also eliminate odors, leaving the air in the booth clean and fresh. The titanium dioxide plate can be removed and washed and then put back in place making maintenance less time-consuming and eliminating the need to constantly buy and replace filters.

Air flow 6,5 m³, noise level < 25 dB, dimensions 80x80x50 mm.

transport wheels

Optional equipment – built-in transport wheels for easy movement of the booth. Thanks to the wheels, the booth can even be moved by one person! To stabilize and level the booth, the transport wheels must be replaced by feet.

acoustic information

acoustic, toughened, laminated glass

according to standards: EN ISO 10140, ISO 717-1

Special acoustic, toughened, laminated glass with the increased sound insulation properties: $R_w=38$ dB

acoustic insulating power of the booth

Optimal acoustic insulation improves comfort and productivity, facilitates conversation and videoconferencing, reduces fatigue and limits excess stimuli.

reduction in speech loudness

The loudness of a conversation conducted by a person inside the Quadra Standing Box is reduced by half (dB), whereas the perceived difference in loudness reduction is as many as 6 times! Due to the aforementioned a confidentiality of the conversation inside the booth is maintained.

short reverberation time inside the booth

The Quadra Standing Box is characterized by a short reverberation time. Thanks to this, our interlocutor will understand us well during the phone call or a teleconference. Also, the unpleasant flutter echo, the so-called "chatter effect", will not be heard inside it.

noise level of the fans outside and inside the booth

The Quadra Standing Box are equipped with an efficient ventilation system. The quiet fans with a high airflow have been used. The air volume has been adjusted to provide optimum for the user.

technical data

Dimensions are expressed in millimeters.

Dimensions are approximate and may vary depending on the selected product configuration. The requirements of the standard are always fulfilled.

The product sheet contains a description of the color options, variants of the wall, floor and panel finishes, as well as the furnishing components possible to be installed.

package

**cardboard
packaging
with a dedicated
cardboard pallet**

H: 1228
L: 2172
W: 800

net product weight: 240
gross cardboard weight: 282

The product in the package is partially disassembled.

Being environmentally friendly is important to us, that's why we have reduced the amount of packaging which makes it easier to stack, pack and dispose of while keeping the product safe during transportation.
