

LinkUP

Technical description

LinkUP line has been created to complement informal places in an office – the places where employees can relax and regenerate. The LinkUP line consists of two models – an armchair and

a chaise longue. Both models have a durable wooden structure. Carefully selected density and thickness of the foam provide comfort of use. The foam used in

products from the LinkUP line is fire retardant. Each model is equipped with black wooden glides.

It is also possible to equip each model with an electric port:

– 1 × 230 V in standard:

– PIX 2 × USB charger with a plug in the standard:

For one model you can order only one electric port. The available location of the electric port is presented in the pictures below:

– LinkUP armchair

– LinkUP chaise longue

The chaise longue can be equipped with a cushion that increases comfort of use. The cushion consists of foam and upholstery fabric.

The LinkUP armchair and chaise longue are available in many types of upholstery. When configuring a product, it is necessary to define the seat (F1) and the seat sides (F2) upholstery colour, while in the case of the chaise longue – also the cushion upholstery colour (F3).

Note: it is not possible to combine two types of upholstery within one model.
