

TECHNICAL DESCRIPTION

MOD. MONOLITH DESKS AND MEETING TABLES

They are available with 4 versions of tops:

- Single 3d-foil top
- Single ceramic top with marble effect
- Top with 3d-foil insert BLACK 56 or GREY BEIGE 83
- Top with black ECO-LEATHER insert.

The wooden tops are made with 2 MDF type wood fibre panels, 18 mm thick, coupled together, with shaped perimeter edges. Covered in the visible part with 3d-foil and counter-plated in melamine in the lower part.

They are available in the colours: GREY ELM 12, BALI WALNUT 30, SLATE 55, BLACK 56, WENGÉ 60.

The tops are also available with a hole for top-access, supplied separately, in the same colour as the metal structure, with a "flip-top" opening with soft closing or, for meeting tables, with bilateral opening.

The marble-effect ceramic top is 6 mm thick and is glued onto the 18 mm thick MDF panel covered in 3D-foil in the following combination:

- WHITE CALACATTA above, GREY BEIGE 83 below,
- DESIRÈ BLACK above, BLACK 56 below

The metal structure is made up of:

- frame made of rectangular section metal tubing 50 x 25 mm thick;
- cable tray in 0.7 mm thick press-folded sheet metal;
- "V" shaped metal legs in 4 mm thick sheet metal equipped with built-in cable riser.

The entire structure is painted with epoxy powders in the colours: RUST, TERRACOTTA, BLACK.

All types of desks can be equipped with lateral service units that act as structural support or as freestanding units.

MODESTY PANELS FOR DESKS

Dimensions: L.90-124.5 x d.1.9 x H.55

The desks can be equipped with modesty panels (optional) available in two different shapes and sizes.

They are made with 18 mm thick MDF wood fibre panels covered in 3D-foil in the colours: GREY ELM 12, BALI WALNUT 30, SLATE 55, BLACK 56, WENGÉ 60, GREY BEIGE 83.

The panel is fixed on a 0.7 mm thick sheet metal painted with epoxy powders in the colours: RUST, TERRACOTTA, BLACK.

The assembly under the top is done with the supplied brackets made of 3 mm thick sheet metal.

SERVICE UNITS ON FEET (USE AS SUPPORT OR FREESTANDING)

The internal structure is made of 18 mm thick particle board panels covered in BLACK 59 or STONE GREY 44 melamine, finished around the perimeter with 0.45 mm thick ABS edge in the same colour as the surface.

The back, doors, top and end sides are made of 18 mm thick MDF wood fibre panels with the internal side faced with melamine and the visible parts covered in 3D-foil in the colours: GREY ELM 12, BALI WALNUT 30, SLATE 55, BLACK 56, WENGÉ 60.

The doors are equipped with a push-open system.

The internal structure of the drawers is made up of sides and bottom in fibre covered in black PVC which slide on metal guides with nylon bearings equipped with limit switches when opening and self-closing when closing.

The structure rests on height-adjustable feet made of nylon. Open inserts made with the folding system in 12 mm thick MDF covered in 3d-foil in the colours: BLACK 56, WENGÉ 60, GREY BEIGE 83.

COLUMNS

The internal structure and shelves are made of 18 mm thick particle board panels covered in melamine, available in the colours: BLACK 59 or STONE GREY 44, finished around the perimeter with 0.45 mm ABS edge in the same colour as the surface.

The shelves are equipped with concealed hardware, which can be positioned in height with 32mm pitches.

The doors, sides and back are made of 18 mm thick MDF wood fibre panels with the internal side faced with melamine and the visible parts covered in 3d-foil in the colours: GREY ELM 12, BALI WALNUT 30, SLATE 55, BLACK 56, WENGÉ 60.

The doors do not have a handle as they are equipped with a push-open system.

The hinges are of the wing and metal box type with 110° opening, complete with bases, with 3D adjustment.

On the black structures the hinges are titanium coloured while on the stone grey ones they are nickel plated.

The open inserts are made with a folding system in 12 mm thick MDF covered in 3d-foil in the colours: BLACK 56, WENGÉ 60, GREY BEIGE 83.

The base is equipped with height-adjustable feet, in black nylon, with an adjustment range of 15 mm.

LOW CABINETS W.180-240

They can be placed in composition with columns as they have the appropriate mathematics or even in the centre of the room (freestanding).

The internal structure and shelves are made of 18 mm thick particle board panels covered in melamine, available in the colours: BLACK 59 or STONE GREY 44, finished around the perimeter with 0.45 mm ABS edge in the same colour as the surface.

The doors, sides and back are made of 18 mm thick MDF wood fibre panels with the internal side faced with melamine and the visible parts covered in 3d-foil in the colours: GREY ELM 12, BALI WALNUT 30, SLATE 55, BLACK 56, WENGÉ 60.

The doors do not have a handle as they are equipped with a push-open system and are reversible left or right.

The hinges are of the wing and metal box type with 110° opening, complete with bases, with 3D adjustment.

On the black structures the hinges are titanium coloured while on the stone grey ones they are nickel plated.

The base is equipped with height-adjustable feet, in black nylon, with an adjustment range of 15 mm.

MODULAR UNITS

Consisting of the following elements:

- >> units with doors,
- >> open inserts,
- >> levelling base, upper top, finishing sides
- >> back panels for centre-room furniture (optional),

The structures of the containers are made of 18 mm thick wood particle panels covered in melamine, available in the colours: BLACK 59 or STONE GREY 44, finished around the perimeter with 0.45 mm ABS edge in the same colour as the surface.

Shelves made of 25 mm thick particle board panels covered in melamine, available in the colours: BLACK 59 and STONE GREY 44, finished around the perimeter with 2 mm ABS edge in the same colour as the surface. They are equipped with concealed hardware, which can be positioned in height with a 32 mm pitch.

The doors are made of 18 mm thick MDF wood fibre panels with the internal side faced with veneer and the visible parts covered in 3d-foil in the colours: GREY ELM 12, BALI WALNUT 30, SLATE 55, BLACK 56, WENGÉ 60.

The doors do not have a handle as they are equipped with a push-open system.

The hinges are of the wing and metal box type with 110°

opening, complete with bases, with 3D adjustment.
On the black structures the hinges are titanium coloured while on the stone grey ones they are nickel plated.
The open inserts are made with a folding system in 12 mm thick MDF covered in 3d-foil in the colours: BLACK 56, WENGE 60, GREY BEIGE 83.
Available in the dimensions: L.60/120 x d.35 x H.22.3.
Base, top and final sides made of 12 mm thick wood fibre panels with visible parts covered in 3d-foil in the colours: GREY ELM 12, BALI WALNUT 30, SLATE 55, BLACK 56, WENGE 60, GREY BEIGE 83.
The base is equipped with height-adjustable feet, in black nylon, with an adjustment range of 15 mm.
The finishing back panels (optional) are made with 18 mm thick wood fibre panels with visible parts covered in 3d-foil in the colours: GREY ELM 12, BALI WALNUT 30, SLATE 55, BLACK 56, WENGE 60, GREY BEIGE 83.

PACKAGING

All components are supplied disassembled and packed in a triple cardboard folding envelope, with perimeter protection strips and for fillings where necessary. The corners are protected, where necessary, with shock-absorbent edge protectors. The packaging is closed with adhesive tape and heat-sealed nylon strapping.
